

BREACH RADAR™

Scan, Detect, Alert, Protect!

- Security, Compliance Scanning and Monitoring Software
- IT System Patching and Updates
- Compliance Policies, Procedures and Training
- 24x7 Monitoring Services
- \$100,000 of Breach Insurance

Breach Radar™ enables organizations to focus on serving customers and run daily operations without worrying about compliancy, system patching, or system security.

If your company is required to be compliant with industry regulations, including Payment Card Industry (PCI) or Health Insurance Portability and Accountability Act (HIPAA), Breach Radar™ reduces the risk of cyber-attacks, data theft and fines.

“Breach Radar™ is perfect for small business and home office users that need to secure company and customer data.”
 – George Hines, CIO Massage Envy

Managed Security and Compliance Solution

Breach Radar™ Business Value

- ✓ Includes \$100,000 Breach Insurance (Per Merchant).
- ✓ Brand and revenue protection via monitoring and preventing data theft, or unauthorized access.
- ✓ Provides ongoing POS, network security and compliance services through a single provider.
- ✓ Improves cash flow by reducing the need to purchase and manage multiple technology solutions.
- ✓ Provides pricing protection for up to 5 years, reducing the impact of technology and service inflation.
- ✓ Expands retail sales ability via Kiosk and remote location coverage.
- ✓ Enables proactive response to security events; includes network and system intrusion prevention and detection.
- ✓ Saves time and money by including access to the required PCI annual Self Security Assessment.
- ✓ Provides continual, multi-year access to cybersecurity and compliance experts for a fraction of the cost.
- ✓ Provides ongoing system patching and updates to reduce downtime, system outages and ensure business continuity.
