*Consulting Services*

### CONSULTING LEGACY

Founded in 2008 by experienced consultants and industry experts as a cybersecurity, risk and compliance consulting company, Terra Verde, LLC is headquartered in Phoenix, Arizona and is one of the largest PCI Qualified Security Assessors (QSA) in the southwest region.

The company performs hundreds of security and compliance assessments, audits and consulting engagements each year, supporting regional, national and large global enterprise customers that have U.S. and international locations.

Our Customers span 14+ industries including:

- Retail, CPG, Foodservices, Restaurants
- Banking, Financial Services, Insurance
- State, Local, Higher Education, Utilities
- Casino, Gaming, Franchise, Health & Wellness

Since 2008, Terra Verde cybersecurity and compliance professionals have positively impacted customers and generated a track record of success:

- Over 1000 Consulting Services Projects
- Over 1000 Managed Security Services Customers
- Over 15 Industries Served
- Over 67 Industry Certifications

Terra Verde's consulting services team is comprised of highly skilled and experienced consulting engineers that retain specialized certifications.

## Security Operations & Technology

*Managed Services*

### MSSP EVOLUTION

In 2010 the company embarked on a mission, responding to customer requests for Managed Security Operations Center Services. After 12 months of research, development and testing, the company officially formed its Managed Security Solutions group in 2011.

Today, the company offers a broad portfolio of Managed Security Operations, Compliance, and Technology Services:

- TruSOC™ - SIEM Monitoring & Management
- Breach Radar™ - Monitoring & Management
- Vendor Risk - Assessment & Management
- Phishing / SETA / LMS - Management
- Patch Management
- Compliance Management

Terra Verde's Managed Security Solutions group is leveraged by customers to deliver cost effective, high quality services that have been proven through:

- Over 300 SIEM Installation Services Customers
- Over 600 SIEM Training Customers
- Over 1000 TruSOC™ and Breach Radar™ Customers
- Over 5000 Monitored Devices

The company evolves its Consulting and Managed Services offerings annually to address new threats, market changes, and to positively impact customers.
